Projector Rental:

If you are showing the slide show to a large group of people, one of the best ways to display it is with a projector. We offer projector rentals for a discounted rate. Our projectors are easy to set up and come with detailed instructions. The projector will arrive at least the day before your event. The day after (or on a Monday) simply drop the projector off at a FedEx location using our pre-paid return shipping label.

- Yes, contact me about a projector (if available)
- No thanks, I'm set

Slideshow Title Slide Information:

Please specify the title to be used for your DVD. This typically appears as the first slide introducing the slide show. A font and color will be chosen to match the mood of the Slide Show. For example:

Ronica & Keith
June 25th, 2005

Title: _____

Additional Title Slides Information:

Additional title Slides are generally used to introduce a set of pictures or as a way to end the slide shows. For example you may have a title slide that has your fiancé's name and birth date and then following that slide the section with their pictures begin. Attach another sheet if necessary.

Additional Title Slide Text	Insert Where?

Photo Text Information

Text on individual photos can be used to explain a picture or add some humor to the slide show. Please indicate the text you would like to include on the individual pictures. Attach another sheet if necessary.

DVD Setup / Continuous Loop

Some people like to have the DVD authored so it continuously loops when it's completed. If you would like your slide show set to a continuous loop, please indicate here.

Music Information:

If you own the music you'd like in your slide show, we include that at no charge to you. Simply send the CD's with your order. We are able to accept burned CD copies and music in MP3 format. Please include the appropriate amount of music with your slide show. The best slide shows we have done have matched the number of pictures to the amount of music well. Most pictures will show on the screen between 3-7 seconds, with 7 seconds being the ideal amount of time. For example, a 30-picture section would last for just about 210 seconds or 3 1/2 minutes. While creating your DVD, if we find the song you selected is too long for the amount of pictures you have selected (meaning that the pictures will show on the screen to long) we will generally fade the song out at the end. We will make our best attempt to find a good point in the song to fade the song out if we need to.

Please indicate below, which songs you'd like to include, and what pictures they should be shown too.

Song Title	Location	Slides Played During
Example: So High John Legend	Get Lifted - Track 1	1 - 30

Transition Preference: Transitions are how your slide shows moves from one picture to the next. Some people prefer an elegant fade in/fade out for slower songs; some prefer faster livelier transitions for up-tempo songs, while others prefer a mix.

- Fade in/Fade Out
- Lively
- Mix

Mailing Instructions:

Please number your photographs on the back in the order that you'd like them to be displayed. When sending them we recommend that you place them in a zip-lock baggie or envelop. We also recommend that you send the photographs in a box to prevent bending. If sending in an envelope it may be helpful to line the envelope with cardboard and to mark the envelope, as PHOTOS DO NOT BEND on the package.

You may submit your Order Form and Pictures too: [Mail Forms and Materials to Representative's name circled](#)
